MADEIRA EST TOUR – SANTANA

Driving up the mountain we reach Poiso and 'Pico do Arieiro', the second highest mountain from the island (1810m). Ribeiro Frio will be the next stop. In the heart of the 'Laurissilva' forest, a gorgeous garden surrounds the trout hatchery. From here you will have the opportunity to make a short walk to "Balcões" (1h30 walk) to enjoy the magnificent views over the deep valleys surrounded by steep mountains. At the end group will have the opportunity to taste a typical drink «Poncha».

Finally, we arrive at Santana, probably the most typical village on the island, where still today some of the peculiar thatching roof houses can be found. Stop for Lunch. Return to Funchal passing by the Faial and Porto Da Cruz to admire one of the most beautiful landscapes of Madeira dominated by a great rocky rise- Penha D'Águia, a true whim of nature. Return to hotel.
